The SafeWise Report Announces the 50 Safest Cities in Georgia

The SafeWise Report released its "50 Safest Cities in Georgia" list this week. To compile this report, SafeWise used the most recent FBI crime data from 2012, population, and other ranking factors, like unique safety initiatives and security programs implemented within the past few years. From the all the cities in Georgia with populations of 5,000 residents or more, we narrowed the list down to 50 and assigned rankings according to how the city met our criteria.

"What's most impressive to me about a state like Georgia is the collective dedication to both personal and community safety," SafeWise security analyst Carolyn Heneghan said. "Of the 50 cities we recognized, it's not just the small towns, but the bigger cities too, that all take part in keeping themselves, their neighbors, and their children safe."
